MINING MAN IS KILLED IN MEXICO

Fred Stark Shot and Clubbed Body of Another Found in River.

Chihuahua, Mexico, Feb. 26.—News has reached here that Fred Stark, superintendent of the Conchosa mines, 30 miles from Ocampo, Chihuahua, was killed at the mine recently. SEES THE END OF THE JUAREZ TRACK

Horseman Says All Tracks in America Must Close for It To Succeed.

"The Juarez track will be a monument to mark the grave of the Jockey club's hopes if the New Orleans track opens next season," is the doleful way in which one of the horse owners at Terrazas park summed up the El Paso racing situation.

"Nothing in the world can save the project from a failure but the closing of all other tracks in the United States," continued the horseman, who has been here since the opening of the midwinter meeting.

"International dealing does not appeal to the American horsemen and they have got the word of it on all sides. The only reason any of the men owning race horses will come to El Paso next winter will be that every other track closes and stays closed. As this is not probable, there will be a fine grandstand and race track for rent before many more years."

"The finalizing out of the present meeting is an indication of the weakness of the plan for making the Juarez track the center of all racing activity in America and El Paso a Monte Carlo. The meeting quit to nothing and the much advertised Juarez derby simmered down to three starters. Charlie Hargrave is not in condition, and this \$1500 event will be decided between German Silver, The Wolf and Corzo; rather a slim field for such an event as the closing of the 'finest race course on the continent.' No?"

BIG DOG BITES A LITTLE GIRL

Amelia Baltran Has Face Badly Lacerated by Canine's Teeth.

Playing out in front of her home on Seventh street, near the corner of Oregon, shortly after 11 o'clock this morning, 3-year-old Amelia Baltran was attacked by a vicious dog and had her face lacerated by the teeth of the animal.

The child was viciously engaged in childish pranks when it bore down on her, bit her on the left cheek, then on the right and a third time, fastened its ugly teeth upon her chin, tearing the flesh and making a wound over an inch long and half an inch deep.

Her frantic mother, believing the child was dying, rushed out and was finally persuaded to take the baby to the city dispensary, where she was attended by Dr. A. H. Butler.

Policeman Ivy Finley went to the scene immediately after the accident, found the big black dog that he believed had bitten the child and fired three bullets into its brain.

It is expected that the wounds will not prove dangerous as the dog was not from the mouth and evidently had not been suffering from rabies. The owner of the canine has not been located.
